(Established by the State Legislature Act No. 21 of 1969 and University with Potential for Excellence by UGC)

## **Department of Mechanical Engineering**

### **Letter of Recommendation**

I am pleased to recommend my student **Manpreet Singh** S/o S. Jaswinder Singh for pursuing Master degree in your university. I know him well from past four years as he is my student in Bachelor of Technology in Mechanical Engineering under **Roll number 17061976936** in session 2019-2023. My acquaintance with him, spread over these years has given me an opportunity to observe him closely and judge his capabilities. He is a brilliant student of high moral and ethical standards. He has made the department proud by scoring 2<sup>nd</sup> position in his four year B.Tech Degree course. He comes across as a polished communicator and a great learner having an eye for details.

Mr. Manpreet Singh has shown interest in all subjects' right from beginning. His good performance in all subjects is indicative of his interest. His enduring interest to keep in track with the new development and the technology shows his inquisitive nature. Apart from being technically sound, he has shown a penchant for grasping and visualizing practical difficulties. His ability to lead also has been the hallmark of his character.

He has planned properly and showed positive attitude for the successful implementation of the major project (motorized umbrella backpack) task assigned to him. His firm basic and easy application of theoretical concepts to practical in an innovative way is remarkable. He had also undergone 20 weeks industrial training in Northern Railway Mechanical Workshop, Amritsar. During training he had the practical industrial exposure and had undergone the group project pertaining to welding defects and its remedies. I am confident that his academic consistency, strong motivation, capacity to understand intricate details and scientific approach in problem solving will bring him success in whatever he undertakes. I have no reservations in recommending him for post graduate studies in your university.

I shall be happy to clarify any point arising out of this note. I wish him success in all his endeavors.

With regards,

*Harminder Singh*

**Department of Mechanical Engineering**

**Letter of Recommendation**

I am writing to you in support of **Mr. Manpreet Singh S/o Jaswinder Singh (under university roll no. 17061976936)** and his desire to attend your university for MS in mechanical engineering program. He has consistently shown such a strong desire to learn that I simply could not turn down his request for recommendation.

I have taught him the subjects like Primary Manufacturing and Mechatronics. His performance in those classes was excellent. He is a bright and intelligent student and his insightful approach towards the subject is splendid. With his diligence and brightness, he finished his assignments in time. Moreover, by scoring 2<sup>nd</sup> position in his degree coursework, he has proved himself as an exemplary student. He joined our institute through the statewide competitive examination for admission in engineering courses.

His teamwork and leadership qualities were well depicted in his group project of Motorized Umbrella Backpack in 7<sup>th</sup> semester. He has also got the practical work experience of the industry in 8<sup>th</sup> semester by working as a trainee in Northern Railway Mechanical Workshop in Amritsar where he also worked under the group project regarding Welding Error and Fixes. Apart from academic success, I attribute to him for excellent communication skills, enchanting leadership qualities.

As a teacher I would rate him in top position among group of students and strongly convinced that Manpreet Singh is sufficiently prepared for his proposed study and that he will make significant contribution to your program. So I strongly recommend him to pursue in masters degree in mechanical engineering at your university. I wish him all the best.

With regards,

## **Department of Mechanical Engineering**

### **Letter of Recommendation**

I am delighted to support the candidature of **Manpreet Singh S/o Jaswinder Singh** for the MS Mechanical Engineering programme at your reputed institution. As being his professor at Mechanical Engineering department in Guru Nanak Dev University situated in Amritsar, I have known him over the last four years. I taught his batch the subjects of Mechanism of Machines, Automobile Engineering and Simulation of Mechanical Systems. Apart from this, I also had the opportunity to supervise his laboratory work related to these subjects. During our interaction, at a personal and academic level, I was instantly struck by his dedication and commitment to academics.

Manpreet Singh has always been an active participant in class discussions while consistently performing well in the courses as well. He has been regular with his assignments submissions and managed to meet the deadlines while staying focused and interested in practical applications of the field. His endeavor of relating lectures in class with regular applications strengthened his foundation greatly which was evident in all practical sessions. He had also shown great team work spirit in group project of Motorized Umbrella Backpack in 7<sup>th</sup> semester. Furthermore, he got the practical exposure of the industry in final semester by going as a trainee in Northern Railway Mechanical Workshop in Amritsar where he was also a part of group under the project of Welding Error and Fixes. Being at the 2<sup>nd</sup> position in his degree coursework, he has proved himself as an exemplary student. Thus, his knowledge of subjects is thorough and extensive.

Lastly, I feel that his strong grasp of different subjects will hold him in good stead throughout his professional life. Thus, I wholeheartedly support Manpreet Singh's decision of pursuing higher studies at your esteemed institution and learn from the best. I wish him all the best in his future endeavours.

With regards,

  
Dr Harjit Singh
