Letter Of Recommendation

Subject: Letter of Recommendation for Ms. Harpaldeep Kaur

I take immense pleasure in recommending **Ms. Harpaldeep Kaur**, Roll number **1703998**, who has expressed her will to pursue further study in your esteemed university. I have known her since 2017 when she joined the college and within these four years she has grown immensely. Through my interactions with Harpaldeep, I found that she is a dedicated, hard-working and sincere student. Right from her first year, she has always been very keen and experimental to learn new things. I have even taught her "Simulation and modeling" in six semester, "Digital Signal processing" in fifth semester. While teaching her, I realized that she has a very good grasping power and yearns to gain in depth knowledge. Harpaldeep is a perceptive, sharp, quick individual with a high aptitude towards Quality assurance and control. She is also an excellent orator and has a very innovative personality which I observed when she gave in-class presentations on my subject. Based on my observation, Harpaldeep is a responsible, logical and a bright student, who has a keen interest in technical knowledge. I am confident that she has the potential to be an outstanding student at your university. Thus, I hereby strongly recommend her for admissions at your institution. Please feel free to contact me on the undernoted address.

Yours Sincerely,

Mr. Tarun Bhalla

LETTER OF RECOMMENDATION

This is to certify that **Ms. Harpaldeep Kaur D/o S. Kulvir Singh**, having Regd. No: 1703998 was a bonafide student of Computer Science & Engineering at this institution during session 2017-20. The medium of instruction during the three-year study was English.

She has been a good student and at the same time highly independent in her decisions. She is an enthusiastic and well-organised student. She has an analytical mind and works on the basics of simple rules. I found her to be a good learner with a razor-sharp mind.

I recommend her for further study at your university and I am sure that she will be a disciplined and dedicated student who will complete her studies with good grades.

I wish her all the success in life.

Thanks and regards
