

Statement of Purpose

My name is **Amandeep** and the number on my passport is **U7493967**. Back in my school days, I volunteered at a community health fair. In that fair, I got a chance to listen to the stories of the people dealing with complex medical situations. Listening to their stories, I realized how good healthcare management can make a difference in people's lives. This experience inspired me to become a part of this system. Hence I have decided to pursue an MBA in Healthcare Management from Utica University.

Academic Background

I have completed my Class X from the PSEB board at Arya Public High School from April 2009 -March 2010. After that, I have also completed my Class XII from the PSEB board at Govt. Girls Senior Secondary School from April 2011 -March 2012. I have also completed my Bachelor of Science (Bio-Technology) at GNDU Ramgarhia College from June 2012 – May 2015. I have also worked as an Office Administration Executive at Sushma Memorial Superspeciality Hospital from Oct 2015 – July 2018. Currently, I have worked as an Office Administration Manager at Sushma Memorial Superspeciality Hospital from August 2018 – Till Date. I have also given the duolingo exam in 2023 and scored 100 points.

Why pursue an MBA in Healthcare Management?

I decided to pursue this course because of several compelling reasons. There are several benefits of having an MBA degree. First of all, it provides job stability. After completing my MBA, I'll be able to choose from a wide range of careers from different enterprises that provide good salaries. There is a high demand for Healthcare Administrators, so opting for this course looks like an idle choice to make a career. Secondly the curriculum is designed in a way which helps the students to develop their leadership skills. To take part in healthcare activities and to handle such a system, leadership qualities are necessary. So, pursuing this course will help me to emerge as a leader so that I can fulfill my duties. Apart from that, another reason for me to opt for this course was my interest to study the subjects that this course is providing. Subjects like International Business, Pharmaceutical Management, Entrepreneurship Management and Hospital Organization are in high demand and I am very excited to study them.

Why study at Utica University?

There are several reasons which I considered before applying for this course at this university. One of the main reasons was its efficiency in providing an ample number of

opportunities. The university has a good network in the industry, and it encourages several internship projects in coordination with the professionals and students from other universities. This will allow me to gain proper practical skills and the much needed experience to excel in this demanding field of healthcare. Secondly, the university has a very good infrastructure, fully loaded with all sorts of facilities that I can ask for. I am very excited to study and spend my valuable time in such an environment.

Career Outcomes

After completing my course, I want to make a positive impact in the healthcare organizations of my country. The comprehensive curriculum will prepare me for roles where I will be able to help patients and make an organization successful. The skills I gain at the university will open up various career paths for me.

Some of the job roles for me to offer are as follows:

1. Pharmaceutical Project Manager
2. Health Administrator
3. Clinical Research Manager
4. Nursing Home Administrator
5. Clinical Manager

Conclusion

I have decided to pursue an MBA in Healthcare Management from Utica University because I have a strong desire to make a positive difference in the healthcare management system of my country. After completing my studies I want to come back to India and use my acquired knowledge for the betterment of my people. The university's dynamic curriculum and experienced professors makes it an ideal place to grow professionally. I am confident that my academic journey over there will help me reach my goal. Thank you for your consideration.

**Thank You,
Amandeep**
