

Statement of Purpose

My name is Rahul Rohilla and the number on my passport is U6516721. For the sake of providing you with a clear and concise understanding of my profile, I am composing this healthful statement. For as long as I can remember, health has been my number one concern, and I want to acquire some high-quality talents in order to become the industry leader in their field. The Master of Health Administration program is the one I have decided to pursue on a global scale after doing extensive research on the subject. Please take into consideration my statement of aim and grant me permission to attend your institution without too many obstacles.

Academic Background

I completed my 10th class from the board of school education haryana in 2010 with 7.20 CGPA. I have completed my 12th standard from the board of school education haryana in 2012 with quality marks. Following that, I have also completed the diploma in medical laboratory technology from November 2013 to December 2014. After that, I have worked as a lab technician in Dr. Lal Path Mullana from 01th May 2014 to 30th May 2015. I have also completed bachelors of science in 2019 from Maharishi Markandeshwar University with a six months internship (Bsc MLT) from 14/05/2019 to 18/11/2021 as a Hospital lab technician. Right now, I am working as a lab technician from 1/12/2021 to till date at NCP college Polytechnic.

Why choose a Master of Health Administration?

Being fascinated by this interesting field of healthcare, I have always aspired to become a part of this dynamic community. This served as a major reason for me to opt for this program. On top of that there are several other compelling factors such as demand for this course in this competitive world. The healthcare sector is evolving everyday, so is the demand for individuals holding a MHA degree. This course also offers several interesting subjects such as Healthcare Management and Health Economics, Quantitative Techniques of Management, Hospital Quality Management and Medical Terminology and Human Physiology, which I am very eager to study.

Why choose Webster University?

This university holds a record in creating students who are very successful in their respective fields, creating a strong network of alumni ensuring proper career guidance for me, this holds as a major reason for me to apply for this university. The university is well reputed for its academic excellence. The University's dynamic team of faculty are experts in

creating leaders out of students, which will prepare me to take on various leadership roles in the future. The location of this university is a significant factor for me. I am particularly drawn to the climate and infrastructure of the area. Considering these factors, I believe I will have a comfortable and enjoyable time while pursuing my course."

Career Outcomes

Till date India does not have proper healthcare facilities in its several corners, various steps are being taken to improve this lacking scenario, various projects have been launched in the past few years, leading to opening of various opportunities. Successful completion of this course will allow me to achieve success in the competitive environment of my country. Some of the job opportunities for me to explore in my country are as follows:

1. Community Health Worker
2. Biostatistician
3. Patient care advocate
4. Cytotechnologist
5. Adult Nurse

Overall, pursuing a Master of Health Administration can be a very transformative experience for me, providing me with the knowledge, skills, and networks needed to excel in today's competitive medical landscape.

Wrap UP

I am very eager about the opportunity to contribute my skill and benefit from the vibrant community of Webster University. I am confident that the combination of academic excellence, collaborative learning and practical experience will empower me to make meaningful contributions in the field of health studies. Upon completion of this course I plan on bringing the knowledge and experience gained from my journey at Webster University back to my home country to contribute meaningfully to the healthcare system in my country and work diligently for the betterment and welfare of my community. I look forward to your assistance in starting my academic journey and becoming a part of the vibrant community of Webster University.

Thank You,
Rahul Rohilla
